[Target Products Added] SK Series Magnetic Contactor, Magnetic Starter, and Industrial Relay Notice of Changing the Front Design of Products

We would like to thank you for your continued patronage of Fuji products.

We will be changing some products as described below.

Please review the following information and take appropriate actions.

Please inform all related sections of your company.

Product names Magnetic contactor, magnetic starter, and industrial relay Series and series name SK Series Types Magnetic contactor: SK06□, SK09□, SK12□ PC board mounting magnetic contactor: SK092L Magnetic starter: SK06□W, SK09□W, SK12□W Industrial relay: SKH4□, and their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) Details of the change 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October. There are no changes of the specification, performance, and dimensions in addition to this chan		
Types Magnetic contactor: SK06□, SK09□, SK12□ PC board mounting magnetic contactor: SK092L Magnetic starter: SK06□W, SK09□W, SK12□W Industrial relay: SKH4□, and their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) Details of the change 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments The products specified in the change notice in May 2014 have been changed sequentially since October.	Product names	Magnetic contactor, magnetic starter, and industrial relay
PC board mounting magnetic contactor: SK092L Magnetic starter: SK06□W, SK09□W, SK12□W Industrial relay: SKH4□, and their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) Details of the change 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products The products specified in the change notice in May 2014 have been changed sequentially since October.	Series and series name	SK Series
Magnetic starter: SK06□W, SK09□W, SK12□W Industrial relay: SKH4□, and their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments The products specified in the change notice in May 2014 have been changed sequentially since October.	Types	Magnetic contactor: SK06□, SK09□, SK12□
Industrial relay: SKH4□, and their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		PC board mounting magnetic contactor: SK092L
their applied products (including high-capacity auxiliary contacts and reversing types) Changed parts Front design of products (type name, Fe mark part) 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products The products specified in the change notice in May 2014 have been changed sequentially since October.		Magnetic starter: SK06□W, SK09□W, SK12□W
Changed parts Front design of products (type name, Fe mark part) 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		Industrial relay: SKH4□, and
Details of the change 1) The typeface of type names displayed at the front of products is changed 2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		their applied products (including high-capacity auxiliary contacts and reversing types)
2) The corporate symbol mark displayed at the front of products is changed to the emblem 3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.	Changed parts	Front design of products (type name, Fe mark part)
3) In addition to the change in item 2), the front design of PC board mounting magnetic contactor is changed Reason for change The product designs are to be standardized in our company Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.	Details of the change	The typeface of type names displayed at the front of products is changed
Reason for change The product designs are to be standardized in our company Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		2) The corporate symbol mark displayed at the front of products is changed to the emblem
Reason for change The product designs are to be standardized in our company Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		3) In addition to the change in item 2), the front design of PC board mounting magnetic
Date of production change Other than PC board mounting magnetic contactor: Product designs have been changed sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		contactor is changed
sequentially since October 2014 PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.	Reason for change	The product designs are to be standardized in our company
PC board mounting magnetic contactor: Product design will be changed from April 2015 Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.	Date of production change	Other than PC board mounting magnetic contactor: Product designs have been changed
Attachments FIN0276405a Changing the Front Design of SK Series Products Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		sequentially since October 2014
Notes concerning the change The products specified in the change notice in May 2014 have been changed sequentially since October.		PC board mounting magnetic contactor: Product design will be changed from April 2015
since October.	Attachments	FIN0276405a Changing the Front Design of SK Series Products
There are no changes of the specification, performance, and dimensions in addition to this chan	Notes concerning the change	since October.
		There are no changes of the specification, performance, and dimensions in addition to this changes are no changes of the specification, performance, and dimensions in addition to this change.

Changing the Front Design of Products

FC 富士電機機器制御

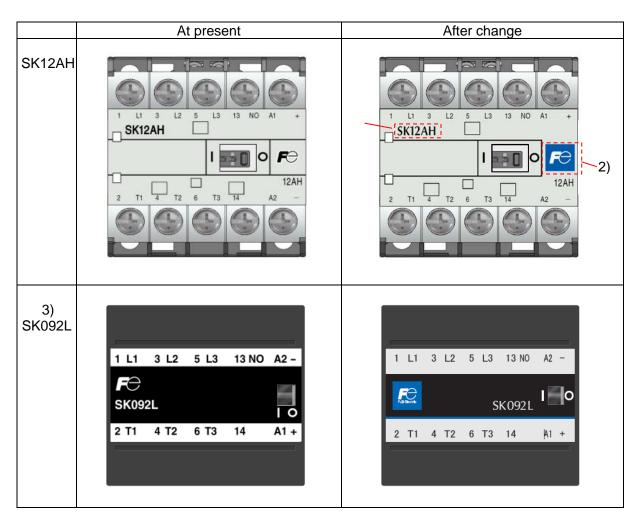

1. Target types

Magnetic contactor: SK06□, SK09□, SK12□
Magnetic starter: SK06□W, SK09□W, SK12□W

Industrial relay: SKH4□, and

their applied products (including high-capacity auxiliary contacts and reversing types)

- 2. Details of the change
 - 1) The typeface of type names is changed
 - 2) The corporate symbol mark (Fe mark) is changed to the emblem
 - 3) The design of PC board mounting magnetic contactor model SK092L only is changed.
