

To All Customers

Fuji Brand / Fuji Electric (Changshu) Brand Products Notification regarding a Change due to the Amendments of EU Directive and China RoHS

Thank you for your continued efforts to promote the sales of Fuji products.

This notification is to inform you of a change concerning Fuji brand*1 and Fuji Electric (Changshu) brand products to conform to the amendments of the EU Directive*2 effective April 20, 2016 and the China RoHS*3 effective for products manufactured in July 2016 or later.

*1 BW0 Series (BW32, 33, 102, 103) and BC Series are excluded.

*2: The Administrative Measure on the Control of Pollution Caused by Electronic Information Products is referred to as the China RoHS in this document.

*3: The Administrative Measure on the Control of Pollution Caused by Electronic Information Products is referred to as the China RoHS in this document.

Note: All of our CE-marked products are compliant with the RoHS Directive (Europe).

1. Amendment of the EU Directive

The EMC Directive 2014/30/EU was issued on March 29, 2014.

For the purpose of clarifying the traceability of products exported to the EU region and respective responsibilities of manufacturers, authorized representatives, importers and distributors, the following are required at the customs of the destination country from April 20, 2016:

- (1) Indication of company name
- (2) Indication of registered trade name and registered trademark
- (3) Indication of the postal address at which the manufacturer can be contacted
- (4) Indication of the contact information of the importer, such as an overseas agent, that is expected to export the product in the EU region

1-1. Target

All CE-marked products

1-2. Actions to be taken by our company

Requirements (1) and (2) are already implemented by indicating the information on the product specification nameplate (or packaging, packing box or instruction manual).

Requirement (3) is already implemented by indicating the information in the instruction manual, etc.

However, only for products that our company determines have adequate space for indication, the

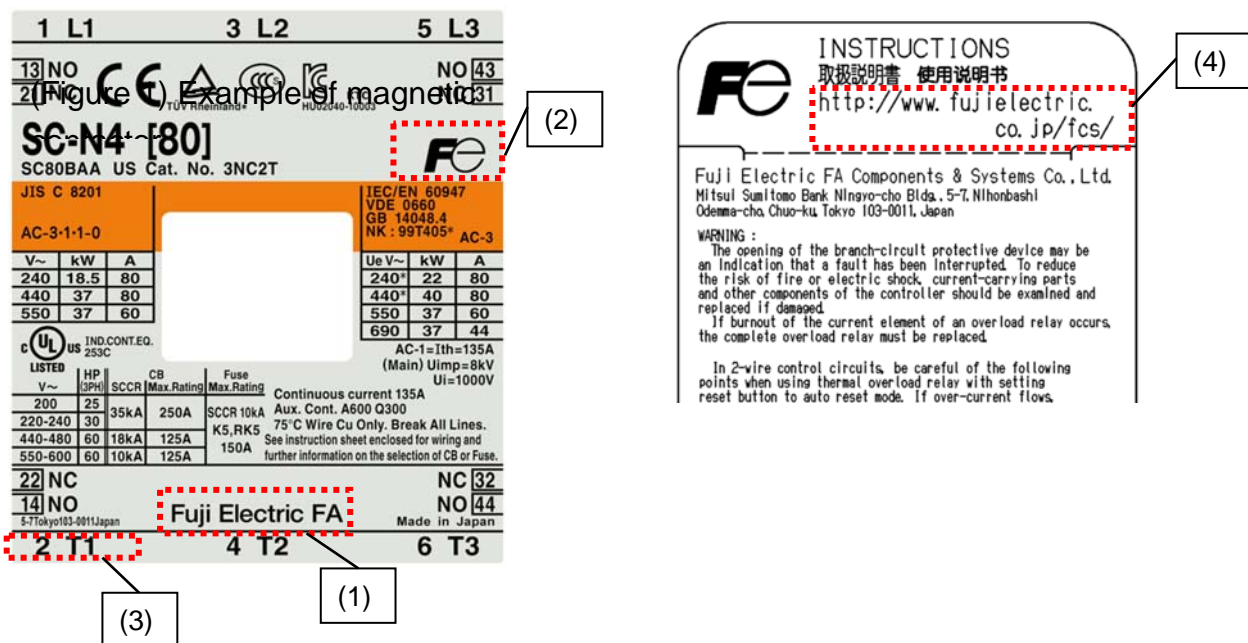

abbreviated postal address of our main office will be indicated on the product specification nameplate.

Requirement (4) is already implemented by indicating, in the instruction manual, etc., the official URL that provides access to the information of the overseas agent concerned.

For some products, requirements (3) and (4) are not met at the moment. For those products, the requirements will be implemented from this time.

For details by model, see attached "List of Actions to be Taken for Each Model".

For the specific examples of indication, see Figure 1.

- (1) Indication of company name
- (2) Indication of trademark
- (3) Indication of the abbreviated postal address of our main office, as follows:
- (4) Indication of the official URL that provides access to overseas agent information

"5-7Tokyo103-0011Japan"

1-3. Notes for placing products on the EU market

(1) When placing a product on the market as a stand-alone product (i.e., when the product is not incorporated in any machinery, equipment)

From April 20 2016 and onward, when a dealership or customer places a product on the EU market, the dealership or the customer must indicate the name and postal address of the destination company in the EU region.

The indication of the information must be implemented by the customer who exports the product.

- * When our product is placed on the market after being incorporated in a machine or equipment compliant with the EU Directive, the product can be used regardless of this change.
- (2) Our products that are already placed on the EU market (products not yet compliant with the amendment of the EU Directive) can be distributed the same as before even after April 20, 2016.

2. Amendment of China RoHS

The amendment of the China RoHS (the Administrative Measure on the Control of Pollution Caused by Electronic Information Products) was issued on January 8, 2016.

Due to this amendment, **the following are required for products manufactured on July 1, 2016, or later:**

- (1) Indication of hazardous substance pollution control mark

- * When the product contains a hazardous substance, the name of the substance and the amount of content must be indicated in addition to the mark.

- (2) Indication of the name of packaging material (Indication of recycle mark)

2-1. Target

Electric equipment that operates at 1500 V DC, 1000 V AC or less.

2-2. Actions to be taken by our company

Concerning (1), the information will be indicated in the instruction manual or packing box.

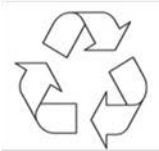

Concerning (2), the recycle mark will be indicated on the packing box.

For products that are compliant with the pre-amendment China RoHS, necessary changes will be made according to the amendment.

For details by model, see attached "List of Actions to be Taken for Each Model".

For the specific example of indication, see Table 1.

(Table 1) China RoHS

Type of indication	Pollution control mark		Indication of the name of hazardous substance and the amount of content																										
(1) Indication of hazardous substance pollution control mark	Hazardous substance not contained		—																										
	Hazardous substance contained		<table border="1"> <thead> <tr> <th rowspan="2">产品</th> <th colspan="6">有害物质</th> </tr> <tr> <th>Pb</th> <th>Hg</th> <th>Cd</th> <th>Cr(VI)</th> <th>PBB</th> <th>PBDE</th> </tr> </thead> <tbody> <tr> <td>塑壳断路器</td> <td>×</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> <tr> <td>漏电保护器</td> <td>×</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> </tbody> </table> <p>本表格依据 SJ/T11364 的规定编制。 ○: 表示该有害物质在该部件所有均质材料中的含量均在 GB/T26572 规定的限量要求以下。 ×: 表示该有害物质至少在该部件的某一均质材料中的含量超出 GB/T26572 规定的限量要求。</p>	产品	有害物质						Pb	Hg	Cd	Cr(VI)	PBB	PBDE	塑壳断路器	×	○	○	○	○	○	漏电保护器	×	○	○	○	○
产品	有害物质																												
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE

(2) Indication of the name of packaging material	Recycling mark (paper)																												
																													

3. Actions to be taken about the product

3-1. Target models and change implementation period

See attached "List of Actions to be Taken for Each Model".

3-2. Notes for orders, etc.

Item	EU Directive	China RoHS
How to order changed product	No change	No change
Distinctive indication of new and old products	Not to be implemented	Not to be implemented
Handling of existing inventory	The changes will not be applied to the inventory. (Products will be switched to changed ones after the inventory has been consumed.)	

There is no change in the product performances, specifications or prices due to this change.
