

# Business Areas and Strengths

Our energy and environment businesses are built around four core technologies, with a focus on power semiconductors and power electronics. We have the strength to offer system solutions to customers who support industrial and social infrastructure, from the energy supply side to the demand side. Through these capabilities, we contribute to the creation of clean energy, the stable supply of energy, energy savings, and automation.

## Energy and Environment Businesses

Priority SDGs to Be Addressed through Our Businesses

Spread of renewable energy use  
Improvement of energy efficiency

Reduction of CO<sub>2</sub> emissions from industrial processes  
Reinforcement of social and industrial infrastructure

Building safe and secure urban infrastructure services  
Development of sustainable transport systems

Efficient use of natural resources  
Rigorous management and reduction of emissions of chemical substances and waste

Reducing society's CO<sub>2</sub> emissions through products  
Reducing GHG emissions through production

### Clean energy Stable supply

### Energy savings Automation
