

Fuji Electric's Environmental Vision 2050

We aim to contribute to the realization of a low-carbon society, a recycling-oriented society, and a society that is in harmony with nature by expanding the of Fuji Electric's innovative clean energy technologies and energy-saving products.

Realize a Low-Carbon Society

Target a reduction of 80% or more in greenhouse gas emissions across the supply chain

Recycling-Oriented Society

Promote green supply chains and 3R* activities to reduce environmental impact to zero

Society that is in Harmony with Nature

Aim for zero influence on the ecosystem by corporate activities contributing to biodiversity

【Fiscal 2030 Target】

Reducing Environmental Burden

Reduce greenhouse gas emissions during production by 31%
(Greenhouse gas emissions' base year: Fiscal 2013)

Creating Environmental Value

Reduce 50 million tons of CO₂ emissions through products annually
