Fuji Electric Co., Ltd. today announced that it has revised its earnings forecast for the first half of the fiscal year ending March 31, 2015 (from April 1, 2014, to September 30, 2014), from the figures announced previously on April 24, 2014. These revisions, outlined below, are made in consideration of recent trends in the Company's performance.

1. Revised consolidated forecast for the first half of the fiscal year ending March 31, 2015 (from April 1, 2014, to September 30, 2014)

2. Reason for revision

Net sales are expected to exceed previously released forecasts in all segments.

Likewise, operating income is projected to rise above the prior forecasts in all segments due to the higher net sales.

Ordinary income and net income are anticipated to be higher than forecast largely as a result of the rise in operating income.

The Company has chosen not to revise full-year consolidated forecasts for the fiscal year ending March 31, 2015.
