& Systems Co., Ltd.

Notification Regarding Change to Printing Specification, Standard No. on CP30F Series Circuit protectors

We would like to thank you for your continued patronage of Fuji products.

We will be changing some products as described below.

Please review the following information and take appropriate actions.

Please also inform all related sections of your company of these changes.

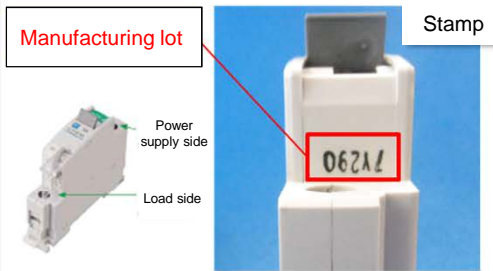

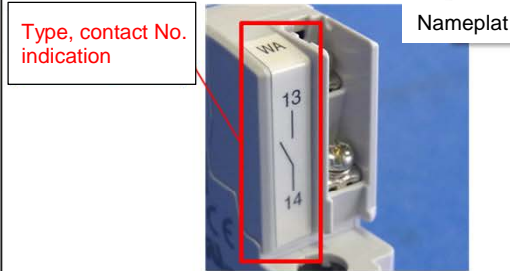

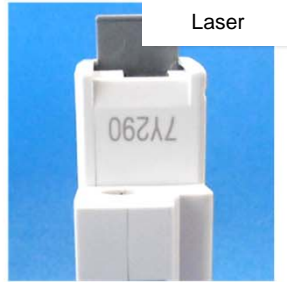

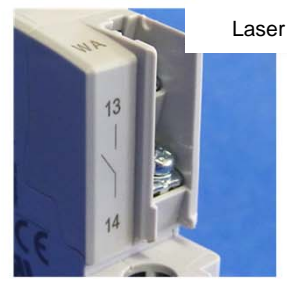

Product name	Circuit Protector
Series name	CP30F Series
Type	CP30FS-1P, CP30FS-2P, CP30FS-3P, CP30FM-1P, CP30FM-2P CP30FM-3P, CP30FI-1P, CP30FI-2P, CP30FI-3P
Changed parts	(1) Case printing specification, (2) Option accessory nameplate, (3) Individual packing boxes, (4) Rating nameplate printing specification
Details of the change	(1) The method used to indicate the manufacturing lot on the power supply side has been changed from stamp printing to laser printing. (2) The option accessory type and contact No. indication has been changed from a nameplate to laser printing. (3) The individual packing box GB standard No. has been changed from GB17701 to GB/T17701. (4) On products with delay device, a "D" has been added to the type indication on the front of the product.
Reason for change	(1), (2) To make identification easier (3) Due to Standardization Administration of The People's Republic of China policy change (switch from GB standard to GB/T standard) (4) To make type identification easier
Date of production change	Scheduled for products to be produced from June 2018
Attachments	[Attachment 1] Change to Power Supply Side Manufacturing Lot and Option Accessory Nameplate Printing Method [Attachment 2] Change to Individual Packing Box GB Standard No., Addition of Delay Device Indication Rating Nameplate
Notes concerning the changes	These changes will affect only the case printing specification, option accessory nameplate, rating nameplate printing specification, and individual packing boxes, and will not affect the external dimensions, etc., or product specifications or performance.
