Fuji Electric FA Components &
Systems Co., Ltd.

Notification regarding the Change of Pilot Lamps for the Capacitor Tripping Power Supply Devices of High-Voltage Vacuum Circuit Breakers and Vacuum Magnetic Contactors

We would like to thank you for your continued patronage of Fuji products.

We will be changing some products as described below.

Please review the following information and take appropriate actions.

Please also inform all related sections of your company of these changes.

Product name	Capacitor tripping power supply device
Series name	VCB-T Series, VS-T Series
Types	For VCB: VCB-T1PB, VCB-T2PB, VCB-T1A, VCB-T2A For VMC: VS-T1A, VS-T2A
Changed parts	Pilot lamp component
Details of the change	(1) Change in color from red to white when the pilot lamp turns off. (2) Change in coloration when the pilot lamp turns on (the color itself will remain red).
Reason for change	Due to a product specification change by the manufacturer of the pilot lamps.
Date of the production change	Scheduled for products to be produced from January 2019
Attachment	Capacitor Tripping Power Supply Device Pilot Lamp Change
Notes concerning the changes	This change will not affect product performance.
