Notification regarding Change to the Device Specifications for the Handle Locks of BW225RAE Series Solid-State Breakers

We would like to thank you for your continued efforts in promoting the sales of Fuji products.

We will be changing some products as described below.

Please review the following information and take appropriate actions.

Please also inform all related sections of your company of these changes.

Product name	Solid-state breaker
Series name	BW□RAE Series
Types	BW9Q1GE
Changed parts	Change to the lockable padlock diameter
Details of the change	<p>We are changing the maximum lockable diameter for the padlocks used in handle lock devices from $\Phi 5$ to $\Phi 6$. However, only a maximum of 2 padlocks can be attached when using a $\Phi 6$ diameter padlock.</p>  <p>Padlock Maximum number: 3 (For $\Phi 6$ diameters, a maximum of 2)</p>
Reason for change	To increase the number of usable padlocks.
Date of the production change	Scheduled for products to be produced from October 2020
Attachment	None
Notes concerning the changes	This change will not affect product performance or outline dimensions.
