## G-TWIN Series Molded Case Circuit Breakers and Earth Leakage Circuit Breakers Notification of Change in Packaging Box Color and Method of Providing Instruction Manuals

We would like to thank you for your continued patronage of Fuji products.

We are writing to announce the changes we will be making in some products.

Details are described below.

Please review the following information and take appropriate actions.

Please inform all related sections of your company.

Product name	Molded case circuit breakers and earth leakage circuit breakers
Series name	G-TWIN Λ Series 32AF, 50AF, 63AF G-TWIN Series 125AF, 250AF, 400AF, 630AF, 800AF
Types	BW32SBG, EW32SBG, BW50○BG, EW50○BG, BW63○BG, EW63○BG BW125○A◆, EW125○A◆, BW250○A◆, EW250○A◆, BW400○A◆, EW400○A◆ BW630○A◆, EW630○A◆, BW800○A◆, EW800○A◆ Mounting & connection method: All surface types ○: Breaking capacity category ◆: Model category *Including UL certified products, derivative products, and products with special specifications.
Changed parts	Packaging box color and method of providing instruction manuals
Details of the change	(1) The instruction manual will be printed on the packaging box of G-TWIN Λ Series molded case circuit breakers and earth leakage circuit breakers. (2) The packaging box color of G-TWIN Series molded case circuit breakers and earth leakage circuit breaker (125AF to 800AF) will be changed to brown and the instruction manual will be printed on the packaging box. (The dedicated instruction manual will be included in the packaging box as before.)
Reason for change	To improve environmental friendliness.
Date of production change	Scheduled for products to be produced from February 2025
Attachments	Attachment 1: "Change of Packaging Box Color and Method of Providing Instruction Manual"
Notes concerning the change	This change does not have any effect on product performance.

## Attachment 1

## Change of Packaging Box Color and Method of Providing Instruction Manual

## [Applicable models]

Molded case circuit breakers and earth leakage circuit breakers (standard/global)

For motor protection/high instantaneous breakers/breakers with earth leakage alarm

With single-phase three-wire neutral line phase-loss protection function/for primary side of transformer/instantaneous trip types

Breakers with non-automatic trip/ZCT

Mounting &amp; connection method: All surface types
