Fuji Electric Co., Ltd

Fuji Electric Exhaust Gas Cleaning System (EGCS)

Instruction Movie for Maintenance and Operation

We would like to express our deepest appreciation to you for your continued support for our ship exhaust gas cleaning systems (EGCS).

We are now providing the videos of operation and maintenance related to water quality meters, laser gas analyzers, and control panels. Both Japanese and English are in the folder.

Later, we will send the download LINK to the registered service contact address.

We hope that you can use it for self-study before boarding the crew or job training during on board.
