Complete FY2018 Medium-Term Management Plan

- Strengthen power electronics systems business
- Further enhance manufacturing capabilities
- Reenergize Pro-7 Activities

New Issues

Proactively invest in expansion of power semiconductor business

Establish a medium-term management plan leading up to FY2023 (100th anniversary of founding)

Priority Measures by Segment

Reorganization of Energy Solutions

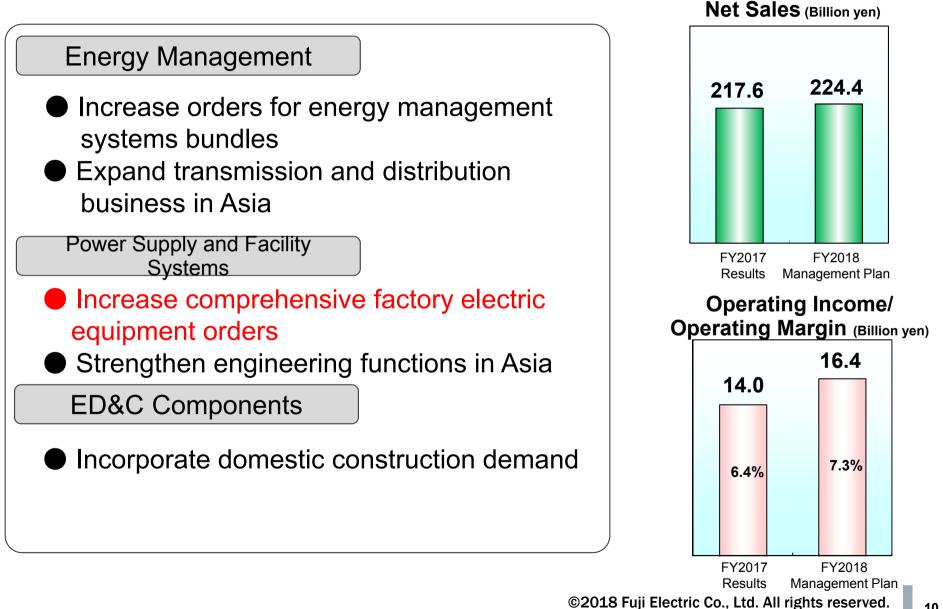

Before Change (FY2017)

After Change (FY2018)

Subsegment	Subsegment	Main Business Area	
Energy Management		Power distribution, Smart meters, Industrial substation,	
Transmission and Distribution Systems	Energy Management	Railway substation, Industrial power supplies	
Power Supply Systems	Power Supply and Facility Systems	Data centers, Uninterruptible power systems (UPS), Electrical facilities, Switchgears and controlgears	
ED&C Components	ED&C Components	Power distribution and control equipment	

Energy Solutions—Priority Measures

Factory Automation

 Introduce global specification products for China and other Asian markets
 Expand FA System operations

Process Automation

- Address rise in new and replacement demand accompanying recovery of domestic capital investment
- Increase orders for plant system bundles for Asia

Social Solutions

Accelerate development of new electrical equipment for railcars

Electronic Devices—Priority Measures

Power Semiconductors

- Proactively invest in future business expansion
- Ensure stable supplies of materials
- Address demand growth by accelerating schedule for back-end production capacity increases
- Step up development of IGBTs for EVs (start deliveries in 2019)
- Commence mass production of All-SiC (Trench MOSFET)

Food and Beverage Distribution—Priority Measures For Fuji Electric

Vending Machines

- Expand vending machine operations in China
- Approach new customers
- Bolster lineup (cup vending machines, food vending machines, etc.)
- Create vending machine market in Southeast Asia
- Commence operation of Indonesian factory
- Develop high-value-added products

Store Distribution

Development convenience store products
Create labor-saving products for nextgeneration stores

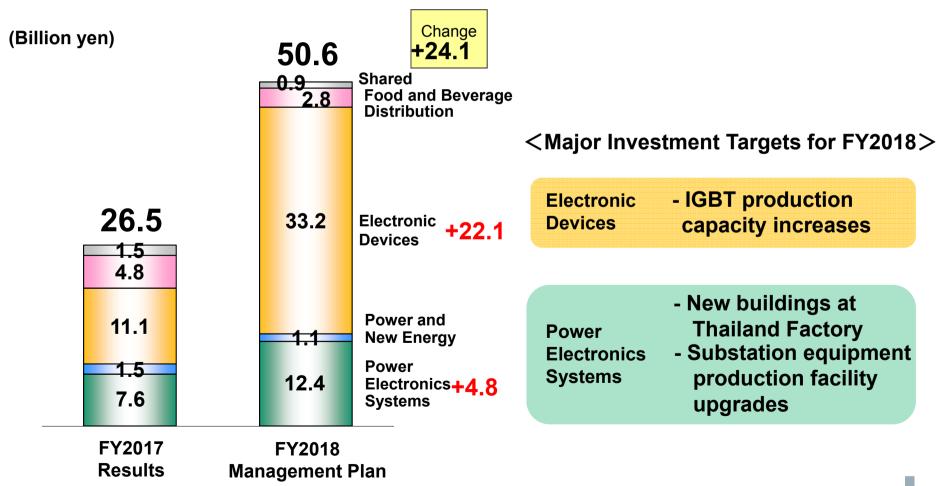

Net Sales (Billion ven)

Capital Investment

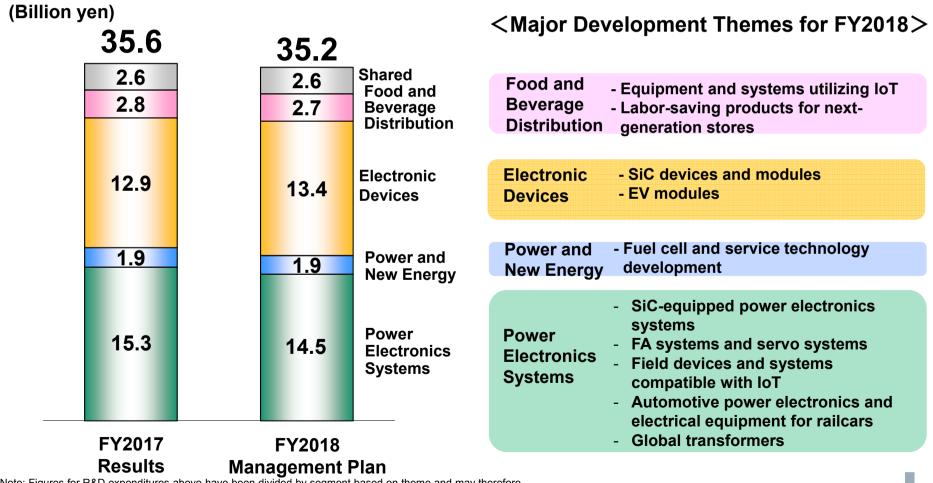

Increase capital investment centered on electronic devices and power electronics systems

Develop competitive, high-value-added products

Note: Figures for R&D expenditures above have been divided by segment based on theme and may therefore differ from the figures contained in the consolidated financial report for the fiscal year ended March 31, 2018.

Pursue **global coordination** based on local production and consumption to further enhance manufacturing capabilities

Realize more efficient and higher value production through automation and in-house productions

Boost productivity by standardizing components and ensuring reliability

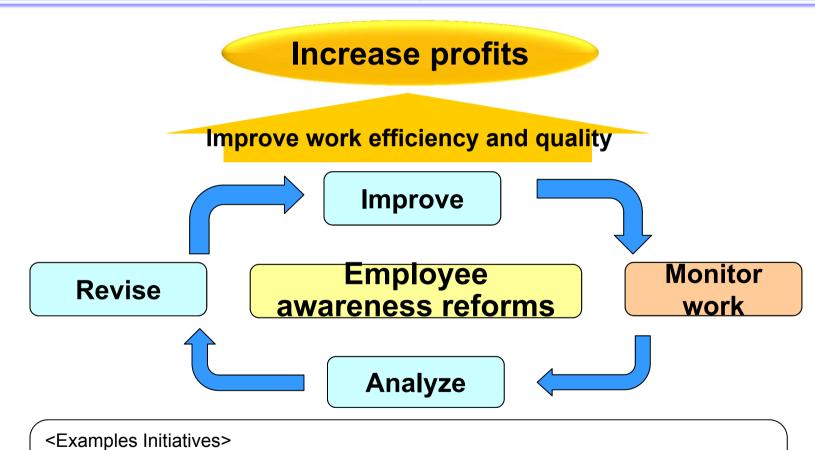

Create factories linked through IoT

Cultivate human resources at overseas production bases

Reenergize of Pro-7 Activities

Promote Pro-7 Activities through concerted effort by all employees and deploy initiatives overseas

- Introduce production monitoring and simple automation measures at overseas bases

- Increase amount of time spent outside of office by sales staff

- Track skills and expertise of field test staff and standardize test plans
