

Compliance

Basic Policies

The Fuji Electric Code of Conduct states that Fuji Electric must “make global compliance a top priority.” In addition, we have defined the Fuji Electric Compliance Regulations, a guideline for compliance, under the supervision of the Board of Directors. We also globally promote compliance through the Fuji Electric Compliance Program and the Fuji Electric Business Ethics Whistle-Blowing Systems.

Promotion System

The Fuji Electric Compliance Promotion Committee is headed by our President and COO as its Chairman, and it consists of control chiefs (managers of businesses and corporate department heads) responsible for regulating laws and acts, with Standing Audit & Supervisory Board members and outside experts (attorneys) as observers. The Committee meets twice per year to deliberate on the implementation status of the Fuji Electric Compliance Program and the Fuji Electric Business Ethics Whistle-Blowing Systems as well as the plan for implementing the Fuji Electric Compliance Program and then reports to the Board of Directors once per year. In the event of a compliance infraction, the Committee has a system in place to take any necessary measures after deliberating on fact-finding investigations, corrective actions, recurrence prevention measures, internal punishments, and internal and external disclosure.

* In-house contact points and external lawyers receive whistle-blowing reports.

Status of Promotion

Fuji Electric Compliance Program

Fuji Electric has established the Fuji Electric Compliance Program to cover four aspects related to compliance with Japanese and overseas laws by both the Company and its Group companies in Japan and overseas. Through reviews and revisions made by the Fuji Electric Compliance Promotion Committee, we conduct activities while also actively acquiring external certifications and disclosing information externally in order to verify the effectiveness of our activities from an external perspective.

(Anonymous reporting is also possible.)

Bribery prevention

With the article “Make global compliance a top priority” stated in the Fuji Electric our Corporate Code of Conduct, we have declared our commitment to bribery and corruption prevention, and we have disclosed the Fuji Electric Anti-Bribery Policy as part of the Fuji Electric Code of Conduct. Under this policy, we endeavor to prevent bribery throughout the supply chain, such as by ensuring that no Fuji Electric employee (including dispatch employees) ever engages in bribery or any act that could arouse the suspicion of bribery and by requesting that all of our stakeholders—including suppliers and other business partners—strive to prevent bribery.

We have also established the Fuji Electric Anti-Bribery Guidelines as a set of rules for Fuji Electric employees (including dispatch employees) to help them prevent bribery during their daily business, and we endeavor to prevent bribery through the execution of the Fuji Electric Compliance Program.

Any employee who is involved in bribery will be subject to strict disciplinary actions based on our work rules.

Note that we work meticulously to protect whistle-blowers by keeping their personal information confidential and prohibiting disadvantageous treatment and retaliatory or discriminatory acts on the grounds of whistle-blowing. In addition, we take all necessary steps to resolve issues raised by whistle-blowers, including fact-finding investigations, corrective actions, recurrence prevention measures, and disciplinary actions. We also provide the details of our response to the whistle-blowers themselves as feedback. (We also strive to indirectly provide feedback through the above measures in the case of anonymous whistle-blowing.)

Due to the enforcement of the revised Whistleblower Protection Act on June 1, 2022, we significantly strengthened our protection of whistle-blowers by expanding the coverage of the protection to encompass all Fuji Electric executives and employees, including retirees.

We also perform daily monitoring by confirming quotations and estimates via a comprehensive bidding information management system and extensive record-keeping. In addition, our internal auditing divisions perform audits in accordance with auditing guidelines, and we conduct extensive level-specific and job-specific training.
