

[Advance Announcement]

Announcement of discontinuation about Programmable Controller

MICREX-SX Series CPU Module SPH200

Thank you for using our Fuji programmable controllers.

We hereby announce that we will inform about the discontinuation of MICREX-SX Series CPU Module SPH200 in March 2025 and discontinue it in March 2026 along with having released replacement model of it. Therefore, we kindly ask for your consideration in transitioning to the successor model.

1. Products to be Discontinued

Product Name	Products to be discontinued (SPH200)		Replacement (SPH2200) *	
	Model	Program Memory	Model	Program Memory
CPU Module	NP1PH-08	8K step	NP1PM-048RN	48K step
	NP1PH-16	16K step		

*We will prepare a "Model transition tool" that allows you to easily convert existing user programs to replacement products (This tool is scheduled to be available around October 2025).

2. Discontinuation Schedule of SPH200

Advance Announcement : January 2025 (This report)
Announcement of discontinuation : March 2025 (Planned)
Last Order : September 30, 2025 (Planned)
Date of discontinuation : March 31, 2026 (Planned)

3. Repair Service

We will provide repair service for 7 years after discontinuation date.

However, repairs may be difficult due to reasons not attributable to our responsibility, such as the supply of electronic parts from parts manufacturer stopped. We kindly ask our customers to stock up on spare parts as soon as possible.

4. Reason for Discontinuation

It is difficult to continue production due to using up the discontinued parts (Microcomputer).
