

Dear Customers

February 2025

Fuji Electric Co., Ltd.

MICREX-SX Series SPH

**Announcement of the discontinuation of Remote Terminal
Master/Slave module**

Thank you for using our Fuji programmable controllers.

We hereby announce that we will discontinue remote terminal master/slave module in MICREX-SX Series SPH.

1. Products to be discontinued

Product Name	Model	Specification
Remote terminal master/Slave module	NP1L-RM1	·Exchange I/O data as a master of remote terminal RM20·RM21 series in Fuji Electric FA Components & Systems Co., Ltd. ·Connect in 1:1 between SPH equipped the master and equipped the slave and exchange I/O data. (Choose function of master or slave with hardware switch of module.)

- ※ Special models of the above products are also subject to discontinuation.
- ※ We will also discontinue remote terminal RM20·RM21 series. Please inquire for the details to the sales representable in Fuji Electric FA Components & Systems Co., Ltd.

2. Reason for discontinuation

Difficulties to produce continuously because there has been an increase in parts that is difficult to get.

3. Schedule

Announcement of the discontinuation : February 2025 (This report)

Last order : September 30, 2025

Discontinuation date : March 31, 2026

4. Replacement Products

There is no replacement model.

Please purchase the product before the last order date if necessary.

5. Repair period

We will provide repair service for 7 years after the discontinuation date.

However, we may not accept repair before this period because of availability of electric parts.
