

**Dear Customers,**

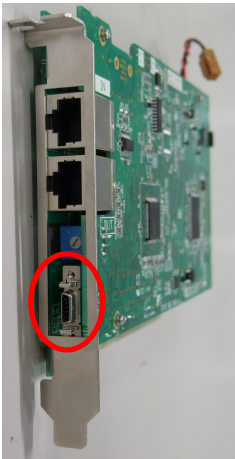

December 2020  
Fuji Electric Co., Ltd

**MICREX-SX Series**  
**Announcement of Change in**  
**PCI-Bus-Based CPU Board Connector**

Thank you for your continued support.

We hereby announce that we have changed the loader connector form of the PCI-bus-based SPH300 CPU board (Type: NP3PS-SX1PCS32/NP3PS-SX1PCS74) in the MICREX-SX Series SPH.

**1. Details of Change**

Target model	Before change	After change
PCI-bus-based SPH300 CPU board  NP3PS-SX1PCS32 NP3PS-SX1PCS74	Loader connector: Small sized connector  	Loader connector: RJ45 type  

Reason for change: The current connector was discontinued.

**2. Notes on Change**

- (1) The change have been made from the production in November 2020.
- (2) According to this change, the hardware version was changed from “26” to “27.”
- (3) There are no changes in the price and the other specifications (except the loader connector).
- (4) According to this change, the applicable loader connecting cable type was also changed.  
Applicable type before change: NP4H-CB2 + NW0H-CNV  
Applicable type after change: NW0H-CA3 + NP4H-CVU
