

**Dear Customers,**

December 2023  
Fuji Electric Co., Ltd.

**Programmable Controller MICREX-F/SX Series**  
**Announcement of T-link electric repeater specification change**

Thank you for your continued support of Fuji Programmable Controller.

We would like to inform you that the T-link electric repeater specification will be changed in the MICREX-F/SX series.

**1. Outline of the Change**

(1) Target Product

MICREX-F/SX series T-link electric repeater

Product name	Model	Specifications and names
Electric repeater	FRC200A-C10	T-link electric repeater AC100~240V

Note: Products with special specifications are also covered.

(2) Description of the change

Elimination of mini T-link connection function.

Note: See Section 3 for detail.

(3) Reason of the change

The MICREX-F60 series, which is equipped with the mini T-link system as standard equipment, has been out of production for a long time\*, and the mini T-link system is expected to be in very low operation.

\*The MICREX-F60 series was discontinued on September 30, 2002  
(some models were discontinued on March 31, 2009)

(4) Changeover date

Starting from January 2024 production.

(Switched after using up the stock)

**2. Notes on Changes**

(1) Product model and price remain unchanged from the current product.

(2) This product cannot be used with the mini T-link system in the future as its connection function will be eliminated.

Customers who use this product with the T-link system will not face any impact due to this change.

### 3. Detail of the Change

#### (1) Product appearance

With the elimination of the mini T-link connection function, the T-link 3/mini T-link changeover switch will be deleted. In addition, the mini T-link connection terminal will be left vacant (no internal connection).

Product appearance	Name
	<ul style="list-style-type: none"> <li>① Status indication LED</li> <li>② Backup power supply terminal block</li> <li>③ Main power supply terminal block</li> <li>④ Ground connection terminal block</li> <li>⑤ Nameplate</li> <li>⑥ T-link 3/Mini T-link changeover switch (Switch deleted, silk printing deleted)</li> <li>⑦ T-link 1 terminal block</li> <li>⑧ T-link 2 terminal block</li> <li>⑨ T-link 3 terminal block</li> <li>⑩ Mini T-link terminal block (Vacant terminal, silk printing deleted)</li> <li>⑪ Mounting screw</li> <li>⑫ Version No.</li> </ul> <p>With the change in specifications, the parts marked with red letters will have a different appearance.</p>

#### (2) Version No.
